We make it
custom!

Fine tune an existing style.

Customize every detail.

We understand that just picking a different fabric color doesn't make it custom. That's why we have an easy process that allows you to determine every aspect of your sofa - from the arm and leg styles, to the back height and width, to the firmness of the cushions.

Each alteration is made with your personal comfort in mind.

And of course every sofa can be constructed with our world famous sofa bed built right inside. So come in and discover for yourself why for over 50 years, when it comes to comfort, New Yorkers choose Avery Boardman.

**All measurements in this catalog are approximate. Seat height varies depending on border width and cushion fill.*

You dream it. We will build it.

Your design - from scratch.

Can't find what you're looking for here?
No worries. Our team of designers and
artisans can turn your dreams into reality.

The myriad of samples on our showroom
floor are merely the starting point from
which your most creative endeavors can
unfold.

Changing a back height, removing a skirt,
narrowing an armrest is just the
beginning. Bring us a picture, or describe
your design and our in-house experts will
work with you every step of the way to
create unique upholstered pieces to fit
any project scheme.

At Avery Boardman we encourage you to
dream big.

Comfort. Day and night.

The story behind our famous Sofa Bed.

Avery Boardman's original founder envisioned a better bed, and our sleepers are known to this day as one of the most comfortable in the industry. Our comfortable cushion fills also ensure you will not feel the mechanism beneath you when sitting on the sofa.

All Avery Boardman frames are sag-proof. And when coupled with our indulgently comfortable mattresses, it guarantees a good night's sleep. Now that's a dream come true.
